Subject:	ITT1-2 (Responsive Webpage Design and Development)
<b>Topics Covered:</b>	<b>Building Responsive Webpage using Bootstrap</b>
Intended Learning Outcome:	Students should be able to build a responsive webpage using Bootstrap 4 applying all the topics or lessons discussed in this subject.

## FINAL LAB PROJECT DESCRIPTION

Your task is to apply what you have learned about Bootstrap 4 in creating a responsive webpage. Now, visit the homepage or landing page of the CAS website (http://cas.nvsu.edu.ph/). Observe the elements used in building the main page.

Your main task or goal here is to convert this landing page into a responsive page using BS 4. The challenge here is build or design your own to come up a new version of this page.
